DETAILED ACTION

The amendment filed 10/30/03 has been acknowledged and entered.

Claims 1-2,4-7, and 16-17 have been cancelled.

The rejections stated in paper No. 3 have been withdrawn in view of applicants' amendment.

Claims 8-13 are in improper format because it is not know if said claims are amended claims or as originally filed.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3, 8-15 and 18-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8-13 are improper dependent claims because they depend on cancelled claim 1.

In claim 18, line 3, it is not clear if "comprising" refers to "process" or to "parts". At line 10, "the spent treatment solution", and "the treated water" are without proper antecedent basis.

In claim 26, lines 6-7 are confusing, and cannot be understood.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 14, 15, 18-26 and 3 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification, as originally filed, does not provide support for "2-phosphono butane- 1, 2, 4-tricarboxylic acid" as claimed in claim 18. The specification as originally filed provide support for "phosphono butane-1, 2, 4-tricarboxylic acid".

Response to Arguments

5. Applicant's arguments with respect to claims 3, 8-13, and 18-26 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
